

DARŁOWO The Yachting Marina

The marina in Darłowo is located in the Rybacki Basin (Fisheries Basin) of Darłowo harbour.

It has two floating pontoons equipped with everything required, including water and power connections. One advantage of mooring in Darłowo is the depth of the harbour, which can accommodate vessels with a draft of up to four meters. Boats moored in the marina have access to power included in the price, and water is paid by meter. Residents, owners of yachts moored permanently in the port of Darłowo, pay extra for power, as indicated by the meter.
