

KOŁOBRZEG The Yachting Harbour

Kołobrzeg

The harbour in Kolobrzeg forms part of the seaport. It is located on Solna Island (Salt Island) between the Parsęta river and the Drzewny (Timber) Canal.

The place is quiet and free from strong winds and swell. The marina itself is a new and modern facility. Visitors to the site have access to toilets, a laundry and drying room, nautical shop, lecture halls and a meeting place for sailors. There are nearly a hundred yacht berths at a concrete quay or on a floating pontoon, each equipped with its own electrical and water supply. You will also find a bulletin board full of useful information, including the weather forecast and the telephone number of a company that will deliver fuel to the site. Those arriving at the port should be aware of the constant monitoring on channel 67 VHF with the call sign 'Marina Kołobrzeg'. The weather forecast is broadcast on this channel at 07.00, 10.35 and 12.15, together with other important shipping information.
