

# Kopice Yacht Harbor

The marina is in the western part of the town. There is a Kopice Fuel Station nearby. Accessible by car or by PKS Stepnica bus.

The marina is open seasonally - from June to the end of the summer holidays. Outside of this period, jetties are still available for water sports enthusiasts. The marina itself consists of two pools that can accommodate nearly 40 small units. Attention! Immersion depth - maximum 0.5 meters. You must watch out for shoals along the way. The harbor basin is not very calm, you must consider strong western winds. At the marina, we do not use the sanitary facilities, we do not fill up with water and we do not recharge the batteries. It is rather a place of temporary stop. At the marina there are: a slip, a parking, a camping site.
