

# ŁABUSZ The Yachting Marina

The marina, located on the southern shore of Lake Jamno, is maintained by rescuers of the Voluntary Water Rescue. The port of Łabusz has berthing in two docks, with wooden jetties, and can accommodate a total of up to fifty small boats. In winter, boats may be kept on the ground, outdoors or in a hangar. Up to thirty medium-sized boats can be kept under cover. The area is a guarded harbour, with toilets and parking for forty cars, and it is possible to obtain tap water and recharge batteries here. Lake Jamno itself, on which the marina is situated, is the third largest lake in Western Pomerania, with an average depth of around one-and-a-half metres.
