

# NOWE WARPNO Yacht Marina

The marina in Nowe Warpno is located on Szczecin Lagoon. The nearest port is the German Altwarp, which is less than a kilometre away.

The marina accommodates up to sixty small boats in five small docks. These can be used by yachts with drafts of up to 1,6 m, whereas the dock outside can accommodate slightly larger yachts. The depth there is approximately 2,2 m. Marina does not offer power points or taps on the quay, and using electricity and water costs extra. However, it is possible to buy the fuel that you need or to visit a store in town. There is a tavern within the marina, where you can eat fresh fish caught by local fishermen. The marina is located on the boulevard of the renovated port. The renovated town square, which includes new sidewalks, a well-developed and maintained green, a monument of a fisherman, and a lookout tower with a walking bridge, is an attractive place for a walk.
