

Multipurpose sports field

The multipurpose sports field is situated on the verge of the Fryderyk Chopin urban park in Drawsko Pomorskie in the immediate vicinity of the Drawa River. You can reach the field by following Poczтова Street and Obrońców Westerplatte Street (the field is situated 100 m from the intersection of these roads).

The multipurpose sports field has an unusual, but very attractive, location in a depression next to the Drawa River. The facility is situated by the main entrance to the Fryderyk Chopin urban park next to elementary school. The facility is multipurpose as it can be a site of matches in various sports disciplines. There is a handball pitch whose dimensions are 40 m x 20 m (also used for playing football matches) within which there is a designated area for a tennis court. The other part of the facility features full size basketball and volleyball courts. The surface of all courts is synthetic (the volleyball and basketball courts have a Tartan surface, while the football pitch and tennis court are covered with an artificial turf). The facility is illuminated which enables matches to be played after dark. There are spectator stands on the scarp adjacent
