

# The eastern seaside bathing beach

Jarosławiec

This seaside bathing beach is located in the northern part of Jarosławiec. It is situated east of Spacerowa Street and is 300 meters long.

The eastern beach is sandy and relatively wide. It can boast the Blue Flag 2012 – an award for the best marinas and bathing beaches. Therefore, the beach meets the highest criteria of water quality, ecological information and education, safety and environmental management. Near beach entrances no 2 and 3, there are numerous informational panels that highlight the natural values of the region. Tourists can learn about the history of the Baltic Sea, the process of cliff coast formation, types of cliffs, characteristic fauna and flora of such a coast. During the summer season, between 9 am till 5 pm, the bathing beach is attended by lifeguards. Beach entrance no 2 - located east of Spacerowa Street, next to a ropes course – is adapted for the needs of the disabled. The attraction of the beach is a fishing harbour. In Jarosławiec, there is no

port, and fishing boats are drawn to the shore after returning from fishing.

The bathing beach in Jarosławiec is a perfect place for people who wish to take a rest in a peaceful spot on the seaside. Jarosławiec has long tourist traditions. The town has a cliff coast, which lends a charm to the place. However, this also means that people have to take continuous actions to preserve this beautiful cliff coast. Since the beginning of 2015, the works connected with the project of protecting the cliffs from erosion and the beach from waves have been still in progress. The costs of the renovation amount to 92 million PLN. This large investment caused a kilometre long section of beach, west of the bathing area, to be closed.
