Center of Culture of the Euroregion at the Old Slaughterhouse,
14 Tadeusza Wendy Street, Szczecin

We invite all children aged 5-12 to participate in the holiday workshop
"Holidays with Lego®".

During the workshops children we will explore the secrets of robotics
with the help of Lego® Education. We will learn and consolidate the
principles of programming, mechanics and building interactive
structures.

The Old Slaughterhouse is a beautiful object with a high standard
where children in perfect conditions and under professional care will
be able to play together. Air-conditioned rooms and catering provided
by one of the best restaurants in Szczecin guarantee satisfaction and
pleasant time spent by children.

Children will spend time building with Lego® bricks, games and
motion games, art projects and more. While playing they will learn a
lot of issues related to mechanics, physics and mathematics.

All this is under the care of experienced, certified educators.
