

Andy Stott | LAB 1: El-deconstruction

27th October, 2018; 07.00 pm - 09.00 pm
Mieczysław Karłowicz Philharmonic, 48 Małopolska
Street, Szczecin

Born in Manchester - the capital of football and alternative music - a music producer, an original and non-stereotypical master of sound deconstruction. Andy Stott specializes in the derimation of house structures, thus creating a new techno image. Moving in dark, rough textures with his deconstruction of predictable samples gives the listener a substitute of something that could be called the music of the cosmos.
