

MDF Festival 2018

19th–23rd September, 2018

MDF Festival - MUSIC.DESIGN.FORM is an international project whose first edition will start on September 19 at the Philharmonic in Szczecin. The idea of the festival is based on a specific synthesis of various fields of art and the blurring of boundaries, on the contact of which new ideas, inspirations, experiments and finally - works are born.

One of the goals of the event is to try to capture in the same place and time trends and laws governing contemporary design and development directions, with particular emphasis on music and applied art.

The festival consists of events of a different nature with the participation of outstanding artists from the country and the world. Everything will be connected by a common denominator - a form - and integrated into the unusual architectural space of the Philharmonic building in Szczecin, creating a coherent whole.
