

Piast Tower and the Wolin Gate

Kamień Pomorski, Słowackiego Street 1.

The Piast Tower is a Gothic tower dating back to the 14th century, along with the Wolin Gate, one of the best-preserved buildings of the medieval town of Kamień Pomorski and its defense system. Currently, the lofty buildings are the seat of the Stone Museum. In its rich collection it presents an extraordinary collection of minerals, fossils, and meteorites. An observation deck, from which you can admire the vast panorama of the city - with its former shape is an additional attraction for tourists visiting them. Its surroundings are also perfectly visible, along with the Dziwna backwaters, the Kamień Lagoon, the Chrząszczewska Island, and the Royal Boulder.
