TBA Music is a young, creative team that combines passion for music with knowledge and managing experience. We are concerned with band promotion, concert organization and other perks. The name of our agency comes from a shortcut well known in the market "To Be Announced". It has to reflect our modern attitude to music, following trends and to show that we cooperate with artists who can conquer music market.

Who do we work with usually? TBA MUSIC consists of Polish artists with longstanding experience such as Novika, A_GIM or Coals, but we also take care about artists who get their feet wet in music industry such as Rosalie. or Lor. We've also collaborated with Daniel Bloom, Reni Jusic, The Moondogs, Catz n' Dogz or Tomek Makowiecki

Collaborating with clubs and festivals in the whole country, we have been organizing, producing and running agency for more than 200 concerts in 2015. We were also responsible for events such as Poznań KontenerART, Salony, Seazone Conference and Festival in Tricity, Jarocin Festival and Seatunes Festival in Władysławowo.

Our motto is to be comprehensive and hard-working in order to reach prominent goals. We treat every artist and event individually.
